EiCompany Retrospective

Continue ▶️
What helped us move forward?

Continue

- Motivation to finish study/subject
- interest in different tool
- creativity
- Regular team discussions
- Challenge of the lecture
- Being responsible for our own product

Stop ⛔
What held us back?

Stop

- jenkins
- overengineering of tasks
- Security
- Overload of new tools
- time used for other lectures
- Lectures in the afternoon/ rooms to heated
- exams of other lectures

Invent 🎨
How could we do things differently?

Invent

- Support improvements 🛠️
- Keep up with set time management
- Stopping to overengineer tasks
- Setting a weekly working appointment (in cooled room or in the morning)
- better plan for merger of frontend and backend
- Better communication between teams

Act 💪
What should we do next?

Act

- preparing a presentation
- Fixing the weekly homeworks
- Writing instruction "How to eiBoard"
- Complete merger of frontend and backend
